LA FLEUR'S FISCAL 2003 LOTTERY INTERIM & VLT BOOK

LA FLEUR'S FISCAL 2003 LOTTERY INTERIM & VLT BOOK with CD-ROM Database has been newly reformatted as a perfect-bound 8 1/2" x 11" book. The 108-page book includes a CD-ROM with the Excel database for all the data files published in the book. This Excel database permits easy analysis of the fiscal 2003 statistics published in the book.

LA FLEUR'S FISCAL 2003 LOTTERY INTERIM & VLT BOOK analyzes the fiscal 2003 versus fiscal 2002 sales performance for the 39 U.S. lotteries, the five Canadian lotteries and five Australian lotteries. The book tracks instant, 3-digit numbers, 4-digit numbers, lotto, Powerball, Mega Millions, cash lotto and keno. Each lottery's FY03 game sales are compared to FY02 sales to develop rankings by game on total sales, per capita sales and percentage increase in FY03 sales versus FY02 individual game sales. The rankings include total sales, instant, 3-digit sales, 4-digit sales, lotto, cash lotto, Powerball, Mega Millions and keno.

In the video lottery terminal (VLT) section, the book profiles how VLTs and video gaming devices (VGDs) are operated and structured in the U.S. (Delaware, Louisiana, Montana, Oregon, Rhode Island, South Dakota and West Virginia) and Canada (Alberta, Atlantic provinces, Manitoba, Quebec and Saskatchewan). The book lists each jurisdiction's reported fiscal 2003 VGD or VLT credits played, credits won, cash in, cash out, net machine income and government profit, the number of devices and revenue generation per device. There are also historical charts analyzing each organization's performance with VLTs/VGDs in fiscal 2003, fiscal 2002, fiscal 2001, fiscal 2000 and fiscal 1999. There are also historical charts detailing annual growth in VLT revenues since startup.
